

# Energy...Environment...Economics

**U.S. Department of Energy  
National Energy Technology Laboratory  
and  
Spectroscopy Society of Pittsburgh**

## Triple "E" Seminar

### PURPOSE:

- Provide an overview on the importance of energy in our daily lives and on the maintenance of industrial growth and economic well being of a nation.
- Enhance understanding of the relationship among the production and consumption of energy, environmental effects, and economy of regions/country.
- Broaden the knowledge of classroom teachers, thus strengthening the math/science curriculum of our schools.
- Foster energy awareness in our youngsters and develop their interest in the fields of science and technology.
- Use the resources available, within the Department of Energy, to assist the local, regional, and national educational systems.

**WHEN:** October 19-20, 2000

**WHERE:** Building 922, U.S. Department of Energy, National Energy Technology Laboratory  
Cochrans Mill Road, located in South Park Township, Pennsylvania.

**TARGETED FOR:** Teachers in K-6 Grade Levels

**CONDUCTED BY:** NETL senior scientists/engineers and experienced educators from educational institutions. Registration is free and lunch will be provided.
